

Fagron Topical Convenience Packs

Innovation in individualized topical treatment

Fagron Topical Convenience Packs offer a quick, safe and convenient solution for efficient compounding of topical extemporaneous preparations.

The convenience packs provide everything a pharmacist needs to prepare a stable topical preparation for an individualized treatment with accuracy and safety.

Benefits of Fagron Topical Convenience Packs:

- Offer maximum efficiency and allow for personalized treatment
- Includes pre-weighed pharmaceutical ingredients and pre-weighed vehicle to prepare a stable topical preparation
- Easy and quick compounding process simply by adding and mixing
- Supported by stability studies
- Best consistency for maximum patient compliance
- Cost-effective and time-saving solution

Individualized topical treatment with accuracy and safety

A topical preparation can be ready in a few minutes by simple mixing the pre-weighed pharmaceutical raw materials in the final dispensing container, following a simple procedure described in the compounding instructions leaflet by the pharmacist. This time-saving solution ensures an individualized treatment with accuracy and can be considered as beneficial for physicians, pharmacists and patients, while decreasing the possibility of errors.

Fagron Topical Convenience Packs contain:

- Pre-weighed compounding vehicle
- Pre-weighed API(s) and DCI(s)
- Dispensing container
- Compounding instructions
