Compatibility of SYRSPEND® SF PH4 (dry, for reconstitution) powder. Homogenize powders. Rinse the API container with water to ensure all API has been transferred. Homogenize powders. Rinse the API container with water to ensure all API has been transferred.

1. Calculate, weigh or measure the API(s). If necessary, reduce the particle size of the API(s) or the crushed tablets or capsule contents and/or add q.s. of SyrSpend® SF powder.

2. Loosen the content in the API container by gentle knocking or shaking.

3. Add water to the dispensing container to reach final volume. Shake vigorously.
